

a

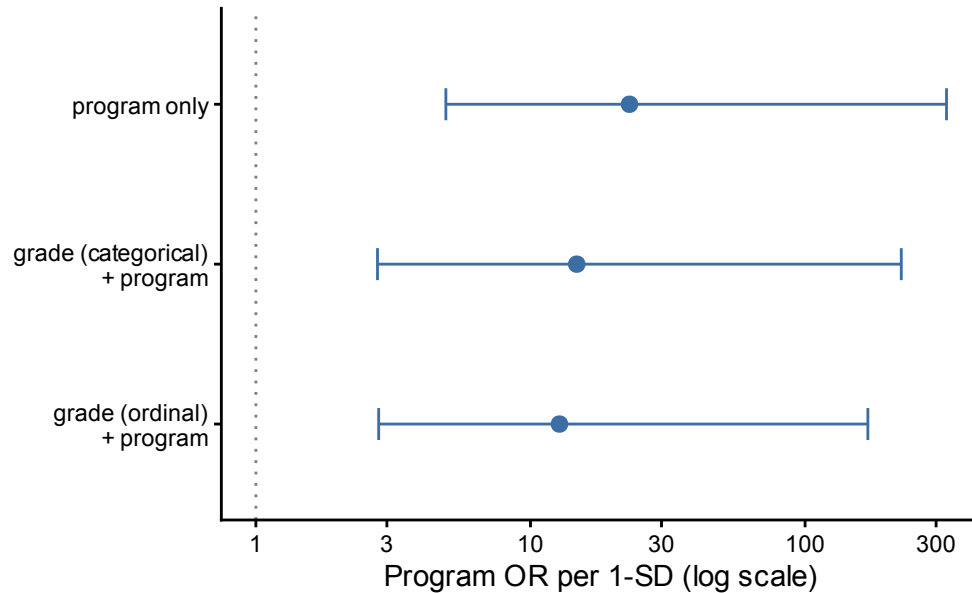

Leave-one-recurrence-event-out (10 refits)
Dashed line: full-data OR 14.7

**b**

Bootstrap coefficient distribution (2000/2000 finite fits)
Median beta 2.86; $P(\text{beta} > 0) = 1.000$

**c**

Program estimates across model specifications
Penalized-likelihood $p(\text{program} | \text{grade}) = 0.0002$

**d**

Confidence-interval method comparison
Profile-likelihood interval is reported
