

A

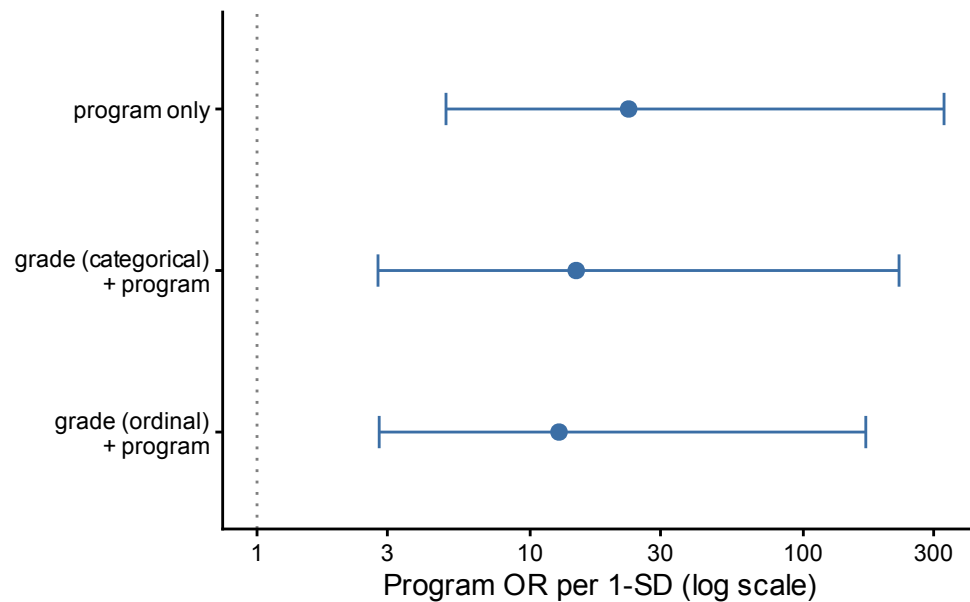

Leave-one-recurrence-event-out (10 refits)
Dashed line: full-data OR 14.7

**B**

Bootstrap coefficient distribution (2000/2000 finite fits)
Median beta 2.86; P(beta>0)=1.000

**C**

Program estimates across model specifications
Penalized-likelihood p (program | grade) = 0.0002

**D**

Confidence-interval method comparison
Profile-likelihood interval is reported
